- Working with state management
- CSS multi browser compatibility
- CSS responsive development (grid, flex & css frameworks...)
- Docker (creating DOCKERFILE & docker-compose for containerizing applications)
- Creating Node js crawler
- Git (for version controlling and team working)

Skills:

- ❖ Javascript, ES6, JQuery
- ❖ HTML, HTML5
- ❖ CSS, SCSS, TailwindCSS, Responsive Design
- ❖ Vue js, Nuxt js
- ❖ Vuex, Redux
- ❖ Webpack
- ❖ Bootstrap, Vuetify
- ❖ SPA, SSR
- ❖ PWA

Experience

7even Tech / Front-end Developer

DEC 2020 - MAY 2021, REMOTE

I joined the 7even tech team as a front-end developer. We developed the project with nuxt.js. The project was so complex in some pages. For example in one page we developed some components & logics that users can build customized Landing pages with no coding, just with drag & drop items, filling inputs and selecting color theme. It was so amazing to me.

Apochi / Front-end Developer

DEC 2019 - JUL 2020, TEHRAN

Apochi is a travel company for foreign travelers who travel to Iran. I joined the IT team as a front-end developer. I developed apochi.com from scratch with Nuxt.js framework. I converted XD designs to Vue.js components for desktop & mobile platforms.

Kamel Barchasb / Front-end Developer

JUN 2019 - NOV 2019, TEHRAN

Actually Kamel Barchasb is a factory in the printing labels industry. I joined the IT team for developing an ERP dashboard. It was my first job as a front-end developer with Vue.js framework with zero experience in real work. I became familiar with teamwork. That was a good experience for me.

Education

Islamic Azad University, Parand Branch / Bachelor, Computer Science

2020 - PRESENT, PARAND, TEHRAN

Now I'm a student at this university.

Noorani Poor / Diploma, Computer Science

2017 - 2019, ROBAT KARIM, TEHRAN

At this point, I became more familiar with programming and continued to learn more seriously.

Comments

I'm a **quick learner**. If you are looking for technology or skills that I don't have, just give me time and I will learn it quickly.

Now I'm a **student** and don't have a Military service completion certificate. I have an educational exemption for about 4 years.

On days when I am in a university class, I can divide the working hours on weekdays to compensate for working hours.
